Nationality: Turkish

ABOUT ME

My roles in the IEEE, and BEST communities taught me firsthand how to unite people from different disciplines around a common goal and run organizational processes end to end. Open to learning and stepping outside my comfort zone, I aim to take on responsibility in large-scale projects and add lasting value to the teams I'm part of.

EDUCATION AND TRAINING

[4 Sep 2021 – 29 Jun 2026]

Computer Engineering

Ege University https://ege.edu.tr

City: İzmir | **Country:** Türkiye | **Level in EQF:** EQF level 6 | **Thesis:** Multimodal-Based Report Generation for Chest Radiographs: Integration of Textual and Visual Features for Automated Turkish Report Generation

[17 Feb 2026 – 17 Aug 2026]

Intern Application Engineer

IBTECH (A QNB Bank Subsidiary) https://www.ibtech.com.tr

City: Izmir | **Country:** Türkiye | **Field(s) of study:** Engineering, manufacturing and construction

- Developed enterprise-level applications utilizing **C# (WPF/MVVM)**, **Java** for QNB Bank's accounting ecosystems
- Implementing **user interface (UI)** bindings and integrating **backend services**
- Supporting application engineering processes in alignment with **ECM Accounting AE** department workflows
- Conducting component design and technical troubleshooting operations within enterprise software architecture

[24 Jun 2024 – 11 Sep 2024]

Intern Mobile Developer

Mehel R&D and Automation

City: Ordu | **Country:** Türkiye

Courier Tracking System

React Native, Flutter, MongoDB, WebSocket - [Linkedin Post]

- Built a *Mobile* and *Desktop* (GitHub) application enabling restaurants to track couriers in real time and collect feedback
- Implemented real-time location updates via WebSocket with MongoDB for data management

Wholesaler Mobile App *(Team of 4 — Project Manager)*

- Developed a mobile and desktop app enabling wholesalers to receive orders 24/7, with campaign and notification management
- Served as project manager for a 4-person development team

PROJECTS

[2 Nov 2025 – 15 Jun 2026]

Multimodal Report Generation for Chest X-rays (Undergraduate Thesis)

DenseNet-121, U-Net, GPT-2, MarianMT, PyTorch - **GitHub**

- Developed an end-to-end multimodal system for automatic Turkish radiology report generation from chest X-rays

- Integrated multi-label classification across 14 pathology classes, lung segmentation, English-to-Turkish translation, and **Grad-CAM** interpretability modules
- Achieved ~0.72 macro **AUROC** and ~0.92 **BERTurk** cosine similarity on the **MIMIC-CXR** dataset

BEST Izmir Website

React, Vite, Tailwind CSS, i18next

- Solely developed a multilingual (EN/TR) corporate website featuring dark/light modes for BEST (Board of European Students of Technology) Izmir, a student community where I actively serve.
- Implemented comprehensive modules for event announcements, board/team showcases, sponsor tracking, and contact management.
- bestizmir.org

Ring of the Middle Earth (Distributed Systems Term Project)

Go, Apache Kafka, Docker, Nginx, Schema Registry - **GitHub**

- Built a distributed, turn-based strategy game with a 3-node replicated backend using **Go** and **Apache Kafka**
- Designed a fault-tolerant architecture with **Kafka Streams** order validation, **Avro** s chema registration, and sticky-session **Nginx** load balancing

Sentiment Analysis with Machine Learning

Python, scikit-learn, pandas, Jupyter - **GitHub**

- Sentiment analysis application classifying text data as positive, negative, or neutral: data preprocessing, model training, and evaluation.

[14 May 2025 – 16 May 2025] **Veterinary Clinic Management and Tracking System (Hackacthon)**

React, TypeScript, Node.js/Express, MySQL - **GitHub**

- Role-based veterinary clinic management system: vaccine/prescription tracking, appointments, inventory, and document management
- built overnight by a team of 3 during a **Hackathon**.

[1 Jun 2025 – 19 Jun 2025] **Restaurant Management System**

React, Node.js/Express, MySQL, JWT - **GitHub**

- Role-based restaurant management system: menu, order, table, staff, and inventory management.

LANGUAGE SKILLS

Mother tongue(s): Turkish

Other language(s):

English

LISTENING B2 **READING** B2 **WRITING** B2

SPOKEN PRODUCTION B2 **SPOKEN INTERACTION** B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Javascript | SQL | Python | Flutter Dart | React | NoSQL | SQL Server | Git | Docker | machine learning | deep learning | C# | Java | .NET | Apache Kafka | Natural Language Processing (NLP) | computer vision

RECOMMENDATIONS

Name: Seymen Ersen Diraman Consulting Application Architect / Team Leader

Team Leader during my internship at the IBTECH - ECM Accounting AE department.

Email: seymenersen.diraman@ibtech.com.tr

Name: Emine Sezer Assistant Professor

Academic advisor for my multimodal deep learning-based graduation thesis project at Ege University, Department of Computer Engineering.

Email: emine.sezer@ege.edu.tr
